Appendix 1 ............................................................................................................................ 13/14/15
Currently Under Review

1. **Mission Statement**

   To provide a specialist service for children and young people with Autistic Spectrum Conditions, that is developed and resourced to facilitate and promote individual growth through education, independence, social skills and self esteem. To strive to provide a service of the highest quality and best practice as recognised locally and nationally.

2. **Introduction**

   The policy outlines the schools’ responsibility to provide adequate and appropriate first aid to pupils, staff, parents and visitors and the procedures in place to meet that responsibility. The policy is reviewed every two years. It informs all staff of the first aid arrangements, which includes the location of equipment, facilities and first aid personnel.

   This policy should be read alongside the Medical Matters Policy, the Medication Policy and the Health and Safety Policy for Doucecroft School Services.

2.1 **Aims**

   - To identify the first aid needs of the school
   - To ensure that first aid provision is available at all times while staff and students are on school premises, and also off the premises whilst on school visits

2.2 **Objectives**

   - To appoint the appropriate number of suitably trained staff as Appointed Persons and First Aiders to meet the needs of the School
   - To provide relevant training and ensure monitoring of training needs
   - To provide sufficient and appropriate resources and facilities
   - To inform staff and parents of the Schools first aid arrangements
   - To keep accident records and to report to the Health & Safety Executive (HSE) as required under the Reporting of Injuries, Diseases and Dangerous Occurrence Regulations 2013 (RIDDOR)

2.3 **Personnel**

   The responsibility for Health and Safety across Doucecroft School Services is overseen by the Head Teacher and Care manager for anyone on the school premises. This includes the teaching staff, non-teaching staff, students and visitors (including contractors). A risk assessment of any individuals attending the school should be undertaken to ensure both the safety of those attending for appointments, and for those carrying out specific tasks on the site. The Training Manager should ensure that training is delivered in accordance with this policy. The Head Teacher and Care Manager should ensure that all
resources for first aid arrangements are appropriate and in place and that insurance arrangements provide full cover for potential claims, arising from actions of staff acting within the scope of their employ.

The Care Manager and Head Teacher are responsible for putting the First Aid Policy into practice and for developing detailed procedures.

The Head Teacher should ensure that the policy and information on the schools' arrangements for first aid are made available to parents.

Teachers and other staff are expected to do all they can to secure the welfare of the students.

2.4 The Appointed Person

The Appointed Person need not be a full First Aider but should have undertaken emergency first aid training. He/she will:

- Take charge when someone is injured or becomes ill
- Look after the first aid equipment, eg restocking the first aid boxes, in their respective classrooms or boarding houses, vehicles, kitchens and swimming pool
- Ensure that an ambulance or other professional medical help is summoned when appropriate

Appointed persons should not give first aid treatment for which they have not been trained.

Within Doucecroft School Services, all staff members are responsible for providing first aid if required, in line with their training. The EFAW Training covers the following topics

- what to do in an emergency;
- cardiopulmonary resuscitation;
- First aid for the unconscious casualty;
- First aid for the wounded or bleeding.

2.5 The First Aider

The First Aider must have completed and keep updated in training course approved by the HSE, according to the Guidance on First Aid for Schools. This is a voluntary post. He/she will:

- Give immediate help to casualties with common injuries or illness and those arising from specific hazards at school
- When necessary, ensure that an ambulance or other professional medical help is called

In selecting first-aiders, the Senior Management Team should consider the persons:
Currently Under Review

- Reliability and communication skills
- Aptitude and ability to absorb new knowledge and learn new skills
- Ability to cope with stressful and physically demanding emergency procedures
- Normal duties (a first aider must be able to leave to go immediately to an emergency)

2.6 Responsibilities

Autism Anglia have overall responsibility for Doucecroft School Services First Aid Policy and ensuring that the practices followed meet the legal requirements and this policy should be read alongside Doucecroft School Services Health and Safety Policy. This should include arrangements for first aid, based on a risk assessment of the school, and should cover:
- numbers of first aiders/appointed persons;
- numbers and locations of first-aid containers;
- arrangements for off-site activities/trips;
- out of school hours arrangements e.g. summer fete

3. Procedures

3.1 Risk assessments

Reviews of the Site Risk Assessment, First Aid training and First Aid supplies should be carried out annually (or when circumstances alter) by the Site Manager. Recommendations on measures needed to prevent or control identified risks should be forwarded to the Head Teacher and Care Manager.

3.2 Re assessment of first-aid provision

As part of the schools annual monitoring and evaluation cycle
- The Head Teacher and Training Manager monitor the number of trained first aiders, alerts them to the need for refresher courses and organises their training sessions
- The Appointed Person checks the contents of the first aid boxes termly, including those in vehicles kept at the school

3.3 Providing Information

The Head Teacher will:
- Ensure that staff is informed about the school’s first aid arrangements.

The Business Manager
- Provides information packs for new staff as part of their Induction Programme
- Gives all staff information on the location of equipment, facilities and first-aid personnel. This will appear in the staff induction pack.

The health and medication coordinator will:
Currently Under Review

- Maintain a First Aid List in the school office on the staff information board, staff room and residential houses

4. Provision

4.1 How many First Aid personnel are required?

The Head Teacher will consider the findings of the risk assessment in deciding on the number of first-aid personnel required. The Head Teacher will consider the needs of specific times, places and activities in deciding on their provision. The following areas will be considered:

- On-site PE activities
- Off-site PE activities
- Gym
- Play area
- Swimming Pool
- Classrooms
- School trips, to include adequate provision in case of absence
- Library/Computer room
- Boarding houses
- Life Skills Kitchen Areas
- Sensory Rooms
- Pond

Arrangements should be made to ensure that the required level of cover of both First Aiders and Appointed Persons is always available when people are on school premises.

4.2 Qualifications and Training

First Aiders will hold a valid certificate of competence. This information is displayed next to every first aid box.

Appointed persons will undertake one-day emergency first-aid training. We endeavour to train most staff working within Doucecroft School Services in Emergency First Aid at work. This training is undertaken so that all staff can deal with a first aid situation. The training covers basic first aid, such as applying bandages, slings; administering CPR; the use of the recovery position etc.

The main role of the staff is to give immediate help to casualties with common injuries or illnesses and those arising from specific hazards at school; and when necessary, ensure that an ambulance or other professional medical help is called. They should not give first aid treatment for which they have not been trained.

Key staff has been trained in the administration of an auto injector. Any student who carries an auto injector that they cannot self-administer, must be accompanied by a member of staff trained in administering an auto injector when going off site. If remaining on site, the member of staff accompanying the student must carry a radio to ensure that support from an epipen trained
Currently Under Review

member of staff can support. There is a list of those trained where the auto
injectors are stored.
Key staff would as needed be trained in the administration of PRN medication
for epilepsy. Any student with this as a health need must be accompanied by
a member of staff trained in administering this medication. If remaining on
site, the member of staff accompanying the student must carry a radio to
ensure that support from a trained member of staff can support. There will be
a list of those trained where the controlled medication is stored and
referenced on the protocols.

4.3 First-aid materials, equipment and facilities

The Site Manager must ensure that the appropriate numbers of first-aid boxes
are available.
- All First Aid boxes must be marked with a white cross on a green
  background
- First aid boxes must accompany PE teachers off-site
- First Aid boxes should be stored near handwashing facilities where
  possible.

All first aid containers are to be checked in line with the chart below by an
Appointed Person. Spare stock should be kept in school and dates checked
with stock safely discarded after the expiry date. Contents should vary
according to the risk assessment of the site or that where there is no special
risk identified in line with the Health and Safety Executive (HSE) guidelines on
minimum contents would be:

A First Aid box contains a minimum of
- a leaflet giving general advice on first aid);
- 20 individually wrapped sterile adhesive dressings (assorted sizes);
- two sterile eye pads;
- four individually wrapped triangular bandages (preferably sterile);
- six safety pins;
- six medium sized (approximately 12cm x 12cm) individually wrapped
  sterile unmedicated wound dressings;
- two large (approximately 18cm x 18cm) sterile individually wrapped
  unmedicated wound dressings;
- one pair of disposable gloves.

The school has several suitable stocked first aid boxes which are stored in:
- Every classroom
- Every kitchen area (life skills, elm kitchen, beech kitchen, sycamore
  kitchen and ash kitchen)
- The school kitchen has a first aid box that meets the requirements in
  the Health and Safety Policy
Currently Under Review

The first aid boxes are checked regularly by the following people (all have been trained in EFAW as a minimum)

All school transport will have on board a first-aid container with the minimum requirement of:

- ten antiseptic wipes, foil packaged;
- one conforming disposable bandage (not less than 7.5 cms wide);
- two triangular bandages;
- one packet of 24 assorted adhesive dressings;
- three large sterile un medicated ambulance dressings (not less than 15 cm x 20 cm);
- two sterile eye pads, with attachments;
- twelve assorted safety pins;
- One pair of rust less blunt-ended scissors.

The school also has an Automated External Defibrillator (AED/ D Fib) on the school site. This is stored in Ash in the medicine room. Staff who have attended a 3-day first Aid course are trained in using the AED and this information is available in the school office, elm office, sycamore office, swimming pool and Ash medicine room with the AED.

4.4 Accommodation

The school has a medical room is located upstairs in Beech. This is a suitable facility for medical treatment and care of children during school hours. It is close to a lavatory and contain a washbasin.

4.5 Hygiene/Infection control

Basic hygiene procedures must be followed by staff to take precaution to avoid infection.

- Wash hands and cover any wounds before applying gloves
- Single use disposable gloves must be worn when treatment involves blood or other bodily fluids
Currently Under Review

- Care should be taken when disposing of dressings or equipment, these should be placed in a yellow bag, or double bagged in line with local authority guidelines

4.6 First Aid Provision

Where first aid is provided for staff and pupils, the Head teacher and Care Manager should ensure that:
- provision for employees does not fall below the required standard;
- provision for pupils and others complies with other relevant legislation and guidance.

First-aid notices are displayed in communal areas such as lobby areas/playgrounds so that all staff are aware where the nearest first aid box is stored. They are also displayed, where first aid boxes are stored.

Whenever first aid is administered, the person administering the first aid should complete an accident form on behaviour watch which will include
- the date, time and place of incident;
- the name of the injured or ill person;
- details of the injury/illness and what first aid was given;
- what happened to the person immediately afterwards (for example went home, resumed normal duties, went back to class, went to hospital);
- name and signature of the first aider or person dealing with the incident.

This information is compiled into an electronic register that is updated every half term by the Health & Medication Coordinator and is shared with the Headteacher and Health & Safety Manager.

Doucecroft School Services staff will deal with any injury in line with the First Aid Training provided. The following list is not exhaustive however in the event of
- possible fractures (during 9 – 4pm), head injuries that do not involve loss of consciousness and injuries that may require stitches medical advice will be sought from the Walk-in centre, Turner Road, C04 5JR.
- Head injuries – Ensure Health Form has been completed and parents have been contacted.

And in the event of
- possible fractures (outside the hours of 9am – 4pm), loss of consciousness, choking, convulsions/fitting, then 999 will be contacted or the person injured will be taken to A&E. 999 must be called if any students protocol requires this.
Currently Under Review

If in the event that a student, staff member, visitor etc. has been potentially injured, an EFAW or First Aider needs to assess their needs and if the recovery position is required.

A Health report (See Appendix 1) will be completed when analgesics are given a child presents with symptoms of ill health, rashes/ marks are observed which could be indicative of a contagious/ infectious disease or an accident/injury requires first aid after the initial point of the accident occurring. A Health Report is not necessary when the administration of analgesics is at parents request. In this instance a note in home/school book will replace the health form.

If analgesics are administered this will be done in line with the Medication Policy.

4.7 Reporting Accidents

Statutory requirements state that under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR) certain accidents must be reported to the Health and Safety Executive (HSE).

Health and Safety Manager must keep a record of any reportable injury, disease or dangerous occurrence. This must include:
(a) the date and method of reporting;
(b) the date, time and place of the event;
(c) personal details of those involved; and
(d) And a brief description of the nature of the event or disease.
This record can be combined with other accident records.

The following accidents involving employees or self-employed people working on the school site must be reported to the Health and Safety Executive (HSE).

- Accidents resulting in death or major injury (including as a result of physical violence)
- Accidents which prevent the injured person from doing their normal work for more than 7 days
(For definitions, see HSE guidance on RIDDOR 1995, and information on Reporting School Accidents)

The following accidents involving students and visitors to the school site must be reported to the Health and Safety Executive (HSE).

- Accidents resulting in death or the person being taken from the site of the accident to hospital if the accident arises out of or in connection with work, i.e.

If it relates to:
- Any school activity, both on or off the premises
- The way the school activity has been organized and managed
- Equipment, machinery or substances
Currently Under Review

- The design or condition of the premises

The HSE must be notified of fatal major injuries and dangerous occurrences without delay. The Head Teacher will liaise with the Health & Safety Manager who is responsible for ensuring this happens.

4.8 Record keeping

(a) **Statutory accident records:** The Head Teacher must ensure that readily accessible accident records, written or electronic, are kept for a minimum of three years from the date of the last entry in line with DfE “Guidance on First Aid for Schools” (February 2014)

(b) **Schools central record:** This can be combined with the RIDDOR record and the Accident Logs, providing all legislative requirements are met.

(c) **Record of First Aid Treatment:**
   The Health and Medication Coordinator must ensure that a record is kept of any first aid treatment given by first aiders or appointed persons. This should include:
   - The date, time and place of the incident
   - The name (and class) of the injured or ill person
   - Details of the injury/illness and what first aid was given
   - What happened to the person immediately afterwards
   - Name and signature of the first aider or person dealing with the incident

Head Teacher must also have in place procedures for ensuring that parents are informed of significant incidents that involve students, stored in line with data protection act.

4.9 Monitoring

Accidents record can be used to help Head Teacher and Site Manager identify trends and areas for improvement. They can also help to identify training or other needs and may provide useful information for insurance or investigative purposes.

### Report (continued overleaf if necessary)

This report is to be completed prior to any student being sent home and a member of the Senior Management Team needs to be consulted. This needs to be an accurate account of staff concerns around the student’s health, symptoms observed and any medication given.
Copy sent home: Please tick: yes

Advice given re returning to school:
For guidance around whether your child should go to school, you may find it helpful to visit the NHS Choices web page "Should my child go to school today?" or to contact your GP/nurse. On page 3 and 4 of this form you can find additional information on common infectious diseases from The Health Protection Agency (HPA).

</tr>
</tbody>
</table>
### Scarlet Fever
- Excluded until 24 hours of appropriate antibiotic treatment completed
- A person is infectious for 2-3 weeks if antibiotics are not administered. In the event of two or more suspected cases, please contact your local HPT.

### Scabies
- Can return after first treatment
- Household and close contacts require treatment at the same time

### Slapped Cheek / Fifth Disease / Parvo Virus B19
- None (once rash has developed)
- Pregnant staff contacts should consult with their GP or Midwife.

### Threadworm
- None
- Treatment recommended for children and household

### Tonsillitis
- None
- There are many cases, but most cases are due to viruses and do not need an antibiotic treatment

### Tuberculosis (TB)
- Always consult your local HPT BEFORE disseminating information to staff/parents/carers
- Only pulmonary (lung) TB is infectious to others. Needs close, prolonged contact to spread

### Warts and Verrucae
- None
- Verrucae should be covered in swimming pools, gyms and changing rooms

### Whooping Cough (pertussis)*
- Two days from starting antibiotic treatment, or 21 days from onset of symptoms if no antibiotics
- Preventable by vaccination. After treatment, non-infectious coughing may continue for many weeks. Your local HPT will organise any contact tracing
